

Customizations of ™

Elevating diversity elearning

Four Customizations Are Included With Purchase

Client logo can be added to upper left-hand corner of the screen.

Client specific resources can be added to the resources button in the navigation at the bottom of screen.

A CEO message, audio clip, and image may be added at client discretion.

Action planning page can be turned off or have PDF or printable options

*Other customizations can be made at an additional cost.
Ask a Sales Representative for more information.*

Commonly Requested Customizations

Can we swap out photos?

Yes. Keep in mind that switching photos means more than just switching photos. These are real stories and parts of their stories are used in the labeling exercise in Module 1, Topic 2. Also, with only nine photos, maintaining a cross-section of diversity was difficult, even for our team, as we created the program. And lastly, the people are featured again at the end of Module 2 in a standing pose.

Can we change it from Change Agent to something else or otherwise change the script?

Yes. This is fairly simple. Costs would include re-writes and re-recording.

Can we change or add a case study?

Yes. First decide on the extent of customization. It is easier to swap text and audio equal to the structure we already have established than it is to add a new one. Costs include re-writes, re-recording, and possibly new art or programming time.
